Ltd. works with a practical execution model: understanding the client requirement, selecting a suitable technical professional, coordinating inspection readiness, verifying documents and site conditions, executing inspection as per approved criteria and submitting clear reports with supporting observations.

Our Client's

IOCL	TERAS
BPCL	FORE SQUARE GEEEN ENERGY
HAL OFFSHORE	WIPRO WATER
ADNOC	JABALPUR MUNICIPAL CORPORATION
GAIL	ORIANO
SABARMATI GAS LIMITED	DENEB
JUNIPER GREEN ENERGY	ISGEC
PROZEL	

Division

Civil, Infrastructure & Renewable Division

Quality monitoring, workmanship verification and site execution support for civil, industrial and renewable projects.

Infrastructure Works

Earthwork inspection
Subgrade and compaction testing witness
Road and drainage inspection
Utility trench inspection
Bridge and culvert work inspection
Material quality verification
Site execution monitoring
Project progress reporting

Steel Structure Works

Material inspection
Drawing and specification review
Fit-up and welding inspection
Bolt tightening verification
Alignment and level checking
Dimensional inspection
Painting and coating inspection
Final handover documentation

Solar, Wind & Renewables

Pile inspection
Module mounting structure inspection
Foundation and civil work inspection
Cable trench and earthing inspection
Switchyard inspection
Wind turbine foundation inspection
Mechanical erection support
Punch point monitoring and final handover

Client Base & Reach

Our Clients & Global Dominance

A professional service network built to support factory inspections, vendor shops, project sites and international assignments through qualified technical resources.

Our Client Base

EPC Companies	Manufacturers	Project Owners
Consultants	Contractors	Vendor Shops
Fabrication Yards	Industrial Plants	Renewable Developers
Infrastructure Companies	Oil & Gas Projects	Power Sector Clients

Global Service Dominance

Pan-India Network

Engineers and inspectors available for project-based assignments across major industrial locations in India.

International Project Support

Technical associate network for overseas and cross-border inspection requirements as per project needs.

Multi-Sector Capability

Inspection, QA/QC, NDT, civil, renewable, electrical, mechanical and infrastructure service experience.

Compliance-Focused Delivery

Execution aligned with client specifications, approved drawings, QAP, ITP and applicable code requirements.
